

**FMMP 2006 Additional Questions  
Parents Lived in Area or Worked at Fernald Plant?**

“Some types of research studies of disease related to environmental exposures require that we know how people are related to each other. It is also important to know if parents worked at the site, to determine if they might have unknowingly ”carried home” exposures.

**What is your biological father’s name?**

\_\_\_\_\_  
First Name Middle Initial Last Name

**(If you are concerned about telling us your biological father’s name, you may skip these questions.)**
